TITLE Libraries & Study Facilities. A Selected Bibliography.

INSTITUTION Wisconsin Univ., Madison. ERIC Clearinghouse on Educational Facilities.

SPONS AGENCY Department of Health, Education, and Welfare, Washington, D.C. National Center for Educational Research and Development.

BUREAU NO BR-7-0883

PUB DATE May 70

CONTRACT OEC-1-7-070883-5095

NOTE 27p.

EDRS PRICE MF-\$0.25 HC-\$1.45

DESCRIPTORS *Automation, *Bibliographies, *Building Design, Building Equipment, Building Materials, Carrels, College Libraries, College Planning, Facility Guidelines, Instructional Materials Centers, Library Equipment, *Library Facilities, *Library Planning, University Libraries

ABSTRACT

This bibliography contains a selected reference list of publications of interest to architects, library planners, and librarians contemplating the planning, programing, and/or design of library facilities. Each reference is followed by a listing of ERIC descriptors that describe its contents. The items are listed in six sections: (1) library planning, (2) carrels and study facilities, (3) library automation and technology, (4) resource and instructional materials centers, (5) building equipment and materials selection, and (6) additional references. CATION POSITION OR POLICY.

I N T R O D U C T I O N

The following is a Selected Reference List of source publications of interest to architects, library planners, and librarians contemplating the planning, programing, and/or design of library facilities. The listing has been prepared by the Educational Resources Information Center (ERIC) Clearinghouse on Educational Facilities located at the University of Wisconsin, Madison, Wisconsin, funded by the U.S. Office of Education.

Each indexed reference source is followed by an alphabetical listing of descriptors which were selected to describe the subject elements of each document. Major descriptors are the most important descriptors assigned to a given document and are identified by an asterisk. The descriptors used throughout this bibliography are part of the Thesaurus of ERIC Descriptors, which is used for indexing, storing, and retrieving documents handled by the ERIC system.
